

# Kyle Wong

Postgraduate student at Sidney Sussex College, University of Cambridge

CRSid: kyhw2

Email: kyhw2@cam.ac.uk

## EDUCATION

---

**Sidney Sussex College, University of Cambridge**, Cambridge, England, United Kingdom 2024 — present  
Master of Advanced Study (MASt) in Astrophysics  
Expected time of completion: June 2025

**Victoria College, University of Toronto**, Toronto, Ontario, Canada 2020 — 2024  
Honours Bachelor of Science (HBSce)  
Programs: Physics Specialist (ASSPE1944), Mathematics Major (ASMAJ1165)  
Graduated with High Distinction

**German Swiss International School**, Hong Kong SAR, China 2010 — 2020  
International Baccalaureate (IB) in 6 subjects  
International Advanced Subsidiary (AS) level in 1 subject  
International General Certificate of Secondary Education (IGCSE) in 12 subjects

## RESEARCH EXPERIENCE

---

**Master's of Advanced Study Project** Cambridge, England, United Kingdom  
*Postgraduate Student* October 2024 — present  
Supervised by Prof. Anastasia Fialkov at the Institute of Astronomy, University of Cambridge

- Research topic: implementation and statistical investigation of variable initial conditions (cosmologies) and variable resolution in 21cmSPACE code package for simulating the distribution of hydrogen gas clouds from in the early universe, making possible efficient forecasting of future radio astronomy experiments, most notably the Square Kilometre Array (SKA)
- Relevant skills: simulation, MATLAB, high performance computing, data visualization, cosmology

**Canadian Institute for Theoretical Astrophysics**  
**Summer Undergraduate Research Fellowship** Toronto, Ontario, Canada  
*Undergraduate Researcher* May 2023 — December 2023  
Supervised by Dr. Philippe Landry at the Canadian Institute for Theoretical Astrophysics

- Research topic: probing neutron star tidal deformability from gravitational wave signals using Markov chain Monte Carlo (MCMC) machine learning parameter estimation, and incorporating new models for neutron star equation of state correlations in the analysis pipeline of Laser Interferometer Gravitational-Wave Observatory (LIGO) Scientific Collaboration gravitational wave data
- Relevant skills: simulation, MCMC, Bayesian inference, high performance computing

**McGill Space Institute Summer Undergraduate Research Award** Montreal, Quebec, Canada  
*Undergraduate Researcher* May 2022 — April 2023  
Supervised by Prof. Adrian Liu at the Trottier Space Institute (formerly McGill Space Institute) of McGill University

- Research topic: incorporating statistical priors into the power spectrum data estimator used in the data pipeline, for analysis of radio astronomy data from the Hydrogen Epoch of Reionization Array (HERA) collaboration's cosmic dawn experiment, using the Python programming language
- Relevant skills: simulation, Fourier transform, radio astronomy, radio frequency interference

## HONOURS, AWARDS AND SCHOLARSHIPS

---

- Dean's List Scholar in the Faculty of Arts & Science 2022, 2023, 2024
- Canadian Institute for Theoretical Astrophysics  
Summer Undergraduate Research Fellowship (CITA SURF) 9,500 CAD, 2023
- Birkenshaw Family Scholarship II 1,000 CAD, 2023
- McGill Space Institute (now Trottier Space Institute)  
Summer Undergraduate Research Award (MSI SURA) 7,000 CAD, 2022
- David and Louise Fraser Scholarship 2,500 CAD, 2022
- University of Toronto Scholar 1,500 CAD, 2022
- Birkenshaw Family Scholarship 1,000 CAD, 2022
- Received offer for University of Toronto  
Natalia Krasnopolskaia Memorial Summer Undergraduate Research Fellowship  
(declined due to commitment with MSI SURA) 2022

## SKILLS

---

- Scientific object oriented programming with Python, MATLAB, and Java, placing emphasis on design and coding practices
- Multi-dimensional data visualization
- Data analysis techniques including fast Fourier transform and numerical methods such as differentiation, integration, root finding, solutions to ordinary/partial differential equations, Monte-Carlo methods
- Symbolic computing
- Extensive use of the Bilby parameter estimation library (authored by the LIGO Scientific Collaboration)
- Extensive use of the 21cmSPACE (authored by the Cosmic Dawn Group at the Institute of Astronomy) cosmological simulation package
- Extensive use of the CAMB and recfast++ astrophysical simulation packages

## PRESENTATIONS

---

- Interim progress presentation, at the Cambridge Cosmic Dawn Group 2024
- *Estimating Neutron Star Tidal Deformability*, at the CITA Undergraduate Research Showcase 2023
- PHY478 Physics Project final presentation 2023
- Two presentations given at the CITA Compact Objects Group, as part of PHY478 Physics Project 2023

## SELECTED COURSES

---

At the University of Cambridge:

- Gravitational Waves and Numerical Relativity Planned (Easter 2025)
- Canonical Gravity Hamiltonian Approach to General Relativity Planned (Lent 2025)
- Astrostatistics Planned (Lent 2025)
- Cosmology In progress (Michaelmas 2024)
- General Relativity In progress (Michaelmas 2024)

At the University of Toronto:

- General Relativity (APM426) A (Winter 2024)
- Relativity Theory II (PHY484) A (Winter 2024)
- Relativity Theory I (PHY483) A+ (Fall 2023)
- Physics Project (a continuation of CITA SURF) (PHY478) A+ (Fall 2023)
- Computational Physics (PHY407) A+ (Fall 2023)
- Computational Astrophysics (CTA200H) Audited (Summer 2023)
- Advanced Classical Mechanics (PHY354) A+ (Winter 2023)
- Geometry of Curves and Surfaces (MAT363) A+ (Winter 2023)

## RESEARCH INTERESTS

---

- Computational data analysis
- Simulation programming
- Machine learning, artificial intelligence
- Gravitation
- Cosmology
- Black holes, compact objects
- Dark matter, dark energy

## RELEVANT EXPERIENCE

---

- Attended 1-week HERA collaboration astrophysics bootcamp, hosted at the University of Pennsylvania 2022
- Tutored physics & mathematics for IGCSE, A-levels, and IB syllabi 2020 — 2022, 2024 — present

## LANGUAGES

---

- English (fluent, language of education)
- Cantonese (fluent, mother tongue)
- Mandarin (formally learned 10 years)
- German (formally learned 10 years)

## CITIZENSHIPS

---

- United States of America (US)
- Hong Kong SAR (HK)

## VOLUNTEERING

---

- Involved in public astronomical observing nights at the Institute of Astronomy
- Involved in Beaver Scouts outreach visits at the Institute of Astronomy
- Volunteered for RiseWise HK, serving as an assistant soccer coach for children with special educational needs
- Travelled to Chiang Mai, Thailand to physically contribute to the construction of a school
- Undertook training and assisted with a public astronomical observing night at McGill University

## MEMBERSHIPS

---

- Sidney Sussex College Football Team, Premier Division
- Cambridge University Mountaineering Club
- Cambridge University Table Tennis Club
- Cambridge University Hong Kong Postgraduate Student Association
- Cambridge University Chinese Society

## PERSONAL INTERESTS

---

- Rock climbing (both outdoors and indoors, with awards won at amateur, inter-high-school and inter-university competitions. Also led a rock climbing extra-curricular activity during high school, including captaining the competition team)
- Soccer (7+ years league participation)
- Scuba diving (PADI open water certified)
- Traveling
